ACADEMIC PROGRAMME

Students learn Spanish by speaking together, using a range of interesting subjects. These become short but engaging projects using role play, developing ideas and discussing them, practising language skills. Lessons are given in well-equipped classrooms and in good weather can be moved outdoors. At the end of the camp students are awarded certificates and a detailed progress report. Students will also enjoy a programme of excursions to various noteworthy local places.

Highly successful and fun – our campers really enjoy the Cíjara Camp language programmes!

Our programme is based on the spoken word and sets very high standards in language learning, with achievable goals for young learners. Using techniques based on participation, role play and fun, students enjoy the experience and get really positive results.

Students are assessed and put into groups according to their age and ability and may be upgraded later as they progress. Lessons are 5 days a week 9,30am to 12,30pm.
