Language Camp

Highly successful and fun - the Cijara Camp's style language programmes that campers really enjoy!

Spanish, French and English are available.

Learn languages in the Cijara Camps - it's "different", successful and fun all the time!

Our highly successful language teaching programme is mainly based on the spoken word and sets very high standards in language learning, yet with achievable goals for the young learner. Using techniques based on participation, role playing and fun, students enjoy the experience and achieve really positive results.

Students learn Spanish, French or English by practicing speaking together, using a range of specially chosen and interesting subjects. These become short but engaging projects using role play, developing ideas and discussing them with other campers using their improving language skills. Lessons are in well-equipped classrooms but in good weather can be moved outdoors. At the end of the camp our qualified teacher and the Language Director award certificates to each student but more importantly a separate detailed progress report is sent independently to each family. As a break, at all language camps the students enjoy a programme of excursions.

The learning process - how it works.

Students are assessed and placed into groups of about 8-10 campers according to their age and their abilities - but may be upgraded later as they progress. Lessons are from Monday to Friday from 10.00 am till 13.00 pm with short 10-minute breaks.

ADVENTURE CAMP

This is an exciting and challenging programme that introduces campers who are enthusiastic about outdoor life to a thrilling range of sports. With our base on the beautiful forest in Extremadura, adventure campers will quickly loose themselves in the beautiful scenery near a lake. The adventure activities take campers into the forest and trails that surround the camp as well as permit the use of the excellent on-site activity facilities available in our campus.

Campers will get an exciting taste of water activities in crystal clear waters. Who knows, they might even get to experience a bit of kayaking as well!! Why not?

In the lake, there might still be time for beach volleyball, swimming and just chilling out.

Away from the lake, campers enjoy through shady ferns and a great variety of trees into the camp. Other activities include archery, water slide and a lot of sports to round out a true Extremadura Adventure.

Environmental Education

Tomorrow's leaders need to be equipped for tomorrow's challenges, and we must adequately prepare our children for the future they will inherit. That requires a commitment to provide children with environmental education that helps them become the educated thought leaders of tomorrow.

Raising an environmentally literate generation of problem solvers will help ensure that tomorrow's decision-makers are prepared for the challenges they will likely face. Studies have shown environmental education engages students in learning, raising test scores, and encourages youth to pursue career in environmental and natural resources. The future of the environment, natural resources, and our quality of life begins with the education of today's youth.
